

LAWFUL PUBLIC NOTICE OF REDRESS

HOW DO WE STOP COMMUNIST ELECTION THIEVES

IN OUR BANANA REPUBLIC?

1. SOAP BOX - FAILED

For many years the public Soap Box has been used to inform and warn our representatives and party leaders about the rigged counting machines. The party leaders remain willfully negligent to act upon verified election fraud. Party leaders are censoring this topic from the conversation at public meetings. Advocates of this message are being banned from those meetings. Former President Trump attorney, Jenna Ellis, has left the Republican Party for these reasons.

2. BALLOT BOX - FAILED

The ballot box has been criminally compromised and voluminous amounts of evidence can be read, seen and watched at www.CountyCongress.com. Since this ballot box has been captured and compromised by domestic and foreign enemies, how can it now be used or trusted to achieve redress of grievances or to elect our representatives? The party leaders claim the elections are honest and safe, do you agree?

3. (GRAND) JURY BOX - ONGOING

The Grand Jury is our last civilized weapon of choice. This effort is now being implemented in collaboration with a former American judge and police chief. Our Founders knew the enemy would return and therefore provided We The People a "peaceful weapon", The Grand Jury. This weapon called the "Peoples Sword and Shield", is at the forefront of battle and organized as Operation Grand Jury at www.CountyCongress.com.

4. CARTRIDGE BOX - LAST RESORT

The cartridge box is our absolute last resort to fight tyranny and restore our Republic from its banana status. The cartridge box is not a desired box to use, nor is it being advocated at this time. However, in communities, gatherings, town halls, and gun shows around America, this option is now being discussed and seriously considered by many as our only remaining option to protect and restore Liberty. If America remains a banana republic, then what does that say for our respect and honor to living veterans and all of those brave souls who suffered and died for America and Freedom? PUBLIC SHAME and criminal complicity will be the inheritance of those who fail to act.
